

Schede tecniche di Prodotto

Interfaccia IP

Numero di riferimento

IPS 200 REG

IP interface

per montaggio su guida, 3 UM

Uso conforme

- Connection between KNX devices and PC or other data processing devices via IP
- Operation as data interface
- Montaggio su guida DIN EN 60715 nel quadro di distribuzione secondario

Caratteristiche del prodotto

- LED display for KNX communication, Ethernet communication and programming mode
- Configuration via ETS, Telnet or software tool
- Max. 5 connections to IP terminal devices, e.g. for simultaneous visualisation and configuration
- Supply from network line (Power-over-Ethernet acc. to IEEE 802.3af) through separate voltage supply ref.-no. NT 2415 REG VDC or the auxiliary voltage output of the KNX voltage supply
- Electrical isolation between KNX and IP network
- Potenza assorbita max. 1 W
